

ONE LIFE-SAVING CHOICE

SPECIAL OFFER FOR THOSE WHO CHOOSE TO SAVE LIVES.

\$50
Screenings

St. Anthony is now offering three screenings at a special rate to the employees, retirees and their families of the Oklahoma City Police Department, Oklahoma City Fire Department, and EMSA. Each scan or screening takes only a few minutes, and they are offered at a special, low rate of \$50 each.

Heart Scan

A heart scan uses CT technology to determine the presence of calcium in coronary arteries that can be an early indicator of heart disease.

Carotid Artery Screening for Stroke

A carotid artery screening using ultrasound technology is used to assess risk for stroke.

Aorta Screening for Aneurysm

An aorta screening using ultrasound technology screens the abdomen for risk of aneurysm.
